

University of Tennessee Hazardous Waste Requirements

DEPARTMENT OF ENVIRONMENTAL
HEALTH & SAFETY

- Dispose of all hazardous waste through EHS. Do not pour down the drain or throw away in the trash.
- Label all hazardous waste with a UT hazardous waste label as soon as waste is added to the container.
- Label containers with the contents (no abbreviations or formulas). Write out entire chemical name.
- Store incompatible waste in separate secondary containment.
- Store waste in an appropriate container that is leak-proof, clean on the outside and compatible with the waste contents.
- Keep containers closed except when actively adding waste.
- Use separate containers for different waste streams to avoid unwanted reactions.
- Do not accumulate more than 55 gallons of waste in one area or lab.
