

Appendix C:**Examples of Cranes and Hoists**

	<p>Jib Crane A type of crane where a horizontal member (jib or boom), supporting a moveable hoist, is fixed to a wall or to a floor-mounted pillar.</p>
	<p>Wall-Crane</p>
	<p>Gantry Crane A type of crane has a hoist which typically runs horizontally along rail/s</p>
	<p>Semi-Gantry Crane</p>

	Monorail
	Switching Monorail
	Bridge Crane A load lifting system consisting of a hoist which moves laterally on a beam, girder, or bridge which in turn moves longitudinally on a runway made of beams and rails. Loads can be moved to any point within a rectangle formed by the bridge span and runway length.
	Mobile Crane Are not covered in this program.

	<p>Winches</p> <p>Are not covered in this program Follow the manufacturer's recommendations</p>
	<p>Electric Chain Hoist</p>
	<p>Manually Operated Hoists</p> <p>Lever Hoist</p> <p>Chain Fall Hoist</p> <p>Come-Along Hoist</p>

 A photograph of a pneumatic chain hoist. It features a cylindrical metal body with a black handle on top, a chain, and a hook at the bottom. The hoist is mounted to a light-colored wall.	<p>Pneumatic Chain Hoist</p>
 A photograph of a red electric wire-rope hoist. It has a red motor housing, a yellow emergency stop button, and a red hook at the bottom. The hoist is shown against a white background.	<p>Electric Wire-Rope Hoist</p>
 A photograph of a pneumatic wire-rope hoist. It has a blue motor housing, a red handle, and a red hook at the bottom. The hoist is mounted to a red horizontal beam.	<p>Pneumatic Wire-Rope Hoist</p>
 A photograph of an engine hoist. It has a black frame with a white handle, a black hook, and a black base with four wheels. The hoist is shown against a white background.	<p>Engine Hoist</p> <p>Are not covered in this program Follow the manufacturer's recommendations</p>
