

Division of Biology Health, Safety, and Compliance Orientation

Tuesday, August 21, 2018, 2p-4p | Strong Hall. Rm. B1

Overview

The University of Tennessee Health, Safety, and Compliance community would like to welcome you to the Division of Biology. We would like to invite you to an orientation session to introduce and orient new DOB graduate students and researchers to relevant programs in health, safety, and compliance. The event is intended to foster interpersonal and programmatic connections. That is, we want to let you know how we can help you in your research path, while providing clear tools and resources to achieve your health and safety responsibilities as new leaders in the UTK community. EHS will be providing refreshments, and we will have a table setup for additional materials and handouts.

Registration is strongly recommended to estimate refreshments and supplies. [Register here](#)

Meet Your Supporting Departments and Groups

Environmental Health and Safety

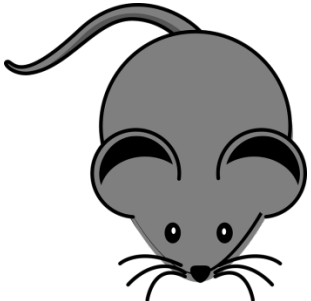

EHS takes a holistic view of health & safety including physical, chemical, other types of hazards.

In addition there are dedicated programs for specific health, safety, and compliance needs listed below. Each group will be present to share their information and resources.

Learn About

- Program essentials
- Contacts and resources
- Roles and responsibilities
- Specific training resources and obligations
