

Need Help Setting up Your BioRAFT Account?

EHS is hosting several one-hour workshops in April

Are you wondering how you will do your chemical inventory for 2019?

Environmental Health and Safety is implementing a new cloud-based system to allow you to maintain your chemical inventory as well as manage other health and safety lab functions, such as hazard assessments, lab safety survey findings, and training requirements.

The first step is to login and perform your initial setup. After completing this the ChemTracker module will be enabled and you will be able to edit you inventory. Additional modules will follow, but we want to help users to get through the brief setup.

Session Description

Setup Assistance

Each one-hour session will include a walk-through of the setup. Please bring a laptop or tablet if you wish to follow along. Some lab setups take as little as 15 minutes, but most take about 45 minutes.

Questions and Troubleshooting

If you have completed the setup and still have questions, then these sessions are for you as well. Ample time is available to ask questions throughout, and we will share any tips and tricks we have learned along the way.

Seats are limited. Please contact EHS at safety@utk.edu if you wish to attend.

Sessions

Date	Time	Location
Tuesday, 04/16/2019	2:00pm-3:00pm	Student Union 360
Tuesday, 04/16/2019	3:00pm-4:00pm	Student Union 360
Wednesday, 04/17/2019	10:00am-11:00am	Student Union 360
Monday, 04/22/2019	2:00pm-3:00pm	Student Union 360
Monday, 04/22/2019	3:00pm-4:00pm	Student Union 360
Thursday, 04/25/2019	9:00am-10:00am	Student Union 360
Thursday, 04/25/2019	2:00pm-3:00pm	Student Union 360
